HackToTheFuture **Open Source Resources**

Here is a good list to start with of technologies people typically mess around with (no particular order):

- Venmo API: https://developer.venmo.com/
- Pebble SDK: https://developer.getpebble.com/
- AWS (Amazon Web Services): https://aws.amazon.com/
- Microsoft SDKs (Azure, Kinect, etc.): https://msdn.microsoft.com/en-us/microsoft-sdks-msdn.aspx
- Capital One: http://api.reimaginebanking.com/
- Uber API: https://developer.uber.com/
- Nest API: https://developer.nest.com/
- Mailchimp API: https://apidocs.mailchimp.com/
- Bloomberg API: http://www.bloomberglabs.com/api/
- Spotify API: https://developer.spotify.com/web-api/
- Parse: https://parse.com/docs/rest/guide
- Heroku: https://devcenter.heroku.com/categories/platform-api

Examples (PennApps and MHacks):
